

No Rotten Chinese Napa Cabbage / Bok Choy Contains Vitamin K , C , ISO 9001, The leaf surface smooth

Specifications :

Price	US \$300 - \$500 / Metric Ton
Brand Name	Chinese cabbage
Model Number	C109
Place of Origin	Shandong/Henan China (Mainland)
Min.Order Quantity	1 Carton
Payment Terms	T/T with 30% before production, 70% balance before delivery; L/C
Supply Ability	Supply four seasons, all the year round.280 Metric Ton/ Metric Tons per Month
Delivery Detail	around 7 days after receipt of 30% deposit
Packaging Details	10KG/CTN; 20KG/CTN
Type	Cabbage
Style	Fresh
Product Type	Cruciferous Vegetables
Cultivation Type	Common
Color	Green,White,Purple
SIZE	5-6 Pieces

Detail Introduction :

No Rotten Chinese Napa Cabbage / Bok Choy Contains Vitamin K , C , ISO 9001, The leaf surface smooth

Quick Detail:

Product Type: Cruciferous Vegetables

Type: Cabbage

Style: Fresh

Cultivation Type: Common

Certification: ISO 9001, SGS, HACCP, GLOBAL GAP

Place of Origin: Shandong China (Mainland)

Brand Name: Chinese cabbage

Model Number: C109

Variety: CABBAGE

PACKING: 10KG/CTN

SIZE: 5-6 PIECES

COLOR: GREEN

Supply availability: all the year round

Packing: 10KG/CTN; 20KG/CTN

Port: Qingdao

Advantage: intergrating process, store and export in a body

Description:

Celery cabbage Chinese cabbage bok choy celery leek chian chives brockley parsely

Name	No Rotten Chinese Napa Cabbage / Bok Choy Contains Vitamin K , C , ISO 9001, The leaf surface smooth
Certificates	ISO 9001, SGS, HACCP, GLOBAL GAP
Size	1-2kg/pcs, 2-3kg/pcs, 3-4kg/pcs, 4-5kg/pcs and up
Supply time	all the year round
Origin	Shandong China (Mainland)
Features	Clean and smooth surface, no rotten, no pest, no infect, light sweet taste, suitable for transport and preserve
Supply ability	280 Metric Ton/ Metric Tons per Month
Packing	outer packing: 10kg/ctn, 20kg/ctn or mesh bag or as per customization inner packing: wrapped with paper
Payment term	T/T with 30% before production, 70% balance before delivery; L/C
Lead time	around 7 days after receipt of 30% deposit
FOB port	Qingdao port, China

Napa cabbage nutrition facts

Napa cabbage, along with bok choy is one of the popular cabbage vegetables in mainland China. Napa's sweet, crunchy celery flavored leaves are one of the most sought-after ingredients in the oriental cuisine where on an average, each person eats about 1 pound of fresh leafy vegetables per day. Nonetheless, Chinese cabbages are increasingly being used in western, Mediterranean as well as in American cuisines.

Health benefits of Napa cabbage

? Napa cabbage is incredibly low in calories. 100 g fresh leaves contain only 16 calories. Along with celery, bok choy, ...etc, it easily fits into the neo-class of zero calorie or negative calorie group of vegetables as often advocated by some dieticians.

? Napa is packed with many antioxidant plant compounds such as carotenes, thiocyanates, indole-3-carbinol, lutein, zeaxanthin, sulforaphane and isothiocyanates. In addition, it is an abundant source of soluble and insoluble dietary fiber. Scientific studies suggest these compounds are known to offer protection against breast, colon and prostate

cancers and help reduce LDL or "bad cholesterol" levels in the blood.

? Fresh napa is an excellent source of folates. 100 g provides 79 µg or 20% of daily required levels of this B-complex vitamin. Folic acid is one of the essential components of DNA. Sufficient amounts of folates in the diet of anticipant mothers help prevent neurological diseases in the newborn babies.

? Further, napa cabbage has very good levels of vitamin-C. 100 g of fresh vegetable provides about 45% of daily requirements of this vitamin. Regular consumption of foods rich in vitamin C helps the body develop resistance against infectious agents and scavenge harmful, pro-inflammatory free radicals.

? Like in other cabbages, napa has adequate levels of vitamin K, provides about 38% of RDA levels. Vitamin-K has a potential role in the bone metabolism by promoting osteotrophic activity in bone cells. Therefore, enough vitamin K in the diet makes your bone stronger, healthier and delay osteoporosis. Further, vitamin-K also has established role in curing Alzheimer's disease patients by limiting neuronal damage in their brain.

? Napa cabbage has small levels of vitamin-A. However, it also contains flavonoid poly phenolic compounds such as carotenes, lutein and xanthins which convert to vitamin A in the body.

? Like other green vegetables, it is a good source of many essential vitamins such as riboflavin, pantothenic acid, pyridoxine (185 of RDA) and thiamin. These vitamins are essential in the sense that our body requires them from external sources to replenish.

? In addition, it is very natural source of electrolytes and minerals like calcium, potassium, phosphorous, manganese, iron and magnesium. Potassium is an important component of cell and body fluids that helps controlling heart rate and blood pressure. Manganese is used by the body as a co-factor for the antioxidant enzyme, superoxide dismutase. Iron is required for the red blood cell formation.

Nutritional value

Pak choi contains a high amount of vitamin A per 4 oz. serving - about 3500 IU. Pak choi also contains approximately 50 mg of vitamin C per 4 oz. serving.

Selection and storage

Pests are common in cabbage. Conventionally grown ones may be subjected to insecticide spray to avoid pest infestation. Therefore, wash thoroughly in running water then soak in saline water for about 30 minutes, again wash in clean water.

In the stores, buy fresh, crispy, compact headed napa cabbage. Avoid those with yellow, dry or infested old stocks. At home, store it as you store other greens in the refrigerator set at high relative humidity. Use cabbage while it is a farm fresh to get maximum health benefits. However, it can be stored in the refrigerator for few days in the fresh state.

Preparation and serving tips

Trim off the base and remove outer discolored leaves. Wash the whole vegetable in cold water. Gently pat dry or place it upside down until all the water drained out.

To prepare, separate the stalks from the base using a paring knife and slice its leaves from the stalk. Thus, once you separate leaves and stalk, you may want to add them in to a variety of recipes either combined or individually.

Here are some of the preparation tips:

- Sweet, crunchy, flavorful napa cabbage leaves can be eaten raw, added to salads, sandwiches, and burgers.
- Like other cabbage varieties, napa can be used to prepare coleslaw.
- Napa cabbage is one of the common vegetables used in Korean fermented dish-kimchi.
- In Thailand and other East Asian countries shredded napa cabbage is steam cooked with rice in plantain leaves.
- In China and other East Asian region, it is used like cabbage in stew fries with added onion, garlic, bell pepper and green chillies mixed with steamed rice and soy/chili/tomato sauce to prepare fried rice, egg rice noodles, chowmein...etc.
- Like bok choy, napa is one of the wonderful vegetables used generously in modern-day recipes like stir fries, soups, stuffing...etc.

Applications:

Uses

Sweet, crunchy, flavorful napa cabbage leaves can be eaten raw, added to salads, sandwiches, and burgers. Like other cabbage varieties, napa can be used to prepare coleslaw.

Napa cabbage is one of the common vegetables used in Korean fermented dish-kimchi.
